Telehealth

MDLand — The Future of Digital Health

Healthcare Refedined: Anytime, Anywhere

Telehealth is the use of digital information and communication technologies (video conferencing, the internet, store-and-forward imaging, streaming media, wireless communications) to access health care services remotely.

The new bill "Telehealth Services During Certain Emergency Periods Act of 2020", authorizes $8.3 billion in emergency aid and $490 million to allow Medicare providers to administer telehealth services for patients to receive care at home amidst the novel coronavirus.

MDLand Telehealth Module

Sign up today!

1. In iClinic EHR, go to *Settings/Advanced/My Account/Telhealth Subscription*, and sign the agreement.
2. Then sign out of iClinic EHR and sign back in. Proceed to the iClinic EHR dashboard, and click *Telehealth*.
3. Have your patients download the "iClinicHealth" app from the Apple or Googe Play Store. https://app.iclinichealth.com/

Who can bill for telehealth services?

- Physicians
- Nurse practitioners
- Physician assistants
- Nurse-midwives
- Clinical nurse specialists

Billing

A good rule of thumb is to use the same coding standards that you would use for an in-person office visit.

Example:
Service: Office or other outpatient visit
CPT codes: 99201-99215 + Modifier:
Medicare/Medicaid: GT
Most Private Payers: 95

Reimbursement

- Medicare/Medicaid
- Major Private Payers (Blue Cross Blue Shield, Aetna, Humana, Cigna, United Healthcare (coverage and fee schedule may vary)

Requirement

- **Providers**: iClinic EHR on the PC or via iClinic Office on the iPad

- **Patients**: Download and Install the iClinicHealth App
